Principal's Message

Dear Students,

I take this privilege to welcome you all to another academic session in this premier institution of higher learning. This institution has been an edifice of knowledge for the last 78 years by reaching out to all sections of society. The mission of the college is not only to pursue academic excellence but also to motivate and empower our students to become lifelong learners, critical thinkers and productive members of society.

Today, we are living in a fast changing and complex society, which presents before us challenges as well as opportunities. In this context, much depends on each individual, how one responds to the situation with the right mindset. Education aims to provide the means to transcend the limitations of human perception and to understand the organic growth of the world, so as to perform one's role efficiently in the larger order of existence. It is a process to cause transformation to the finest of our thoughts, words and deeds. It is to create cultured, developed and compassionate human minds with efficient working skills.

Higher education makes you more aware of what you are actually capable of and enables you to improve your own life as well as contribute to the world. You tend to stand a bit taller and straighter. In other words, you become more confident in yourself and better equipped to deal with life's challenges. However, it is important to remain positive. Always remember that you are the maker of your own personality. You can yourself write your success story, if you allow yourself to succeed. For that you need to change your attitude towards things by plugging into the power of positive thoughts. Your self-belief empowers you to think of a reasonable probability in relation to the fulfillment of your cherished goal.

I wish you all the luck in this new journey of scholastic acquisition.

INTRODUCTION OF NEP 2020 IN HIGHER EDUCATION

The Government of Himachal Pradesh has officially mandated the rollout of the National Education Policy (NEP)-2020 across all higher education institutions starting from the 2026-27 academic session, ending the traditional annual exam structure. Spearheaded by Education Minister Rohit Thakur via the State Level Task Force, this implementation transforms state-level undergraduate (UG) and postgraduate (PG) education frameworks to match national standards.

Key Structural Reforms

- **Flexible Degree Options:** Institutions will offer a 3-year standard UG degree, a 4-year UG with Honours / Honours with Research, and a 5-year integrated Bachelor's–Master's program.
- **Mandatory Semester System:** The state has officially abolished the annual examination system in affiliated colleges, transitioning completely to a uniform semester model.
- **Direct PhD Pathway:** Master's students can now bypass the MPhil degree and transition directly into PhD research programs.
- **Credit Accumulation:** Seamless student migration and course breaks are enabled via integrated SWAYAM/MOOCs platforms and the Academic Bank of Credits (ABC).

Curriculum & Evaluation Upgrades

- **Outcome-Based Curriculum:** Leading state institutions like Himachal Pradesh University (HPU) and Sardar Patel University (SPU) have restructured first-year syllabi to focus on skill integration, Indian Knowledge Systems (IKS), and vocational training.
- **Practical Learning:** The state framework guarantees the mandatory integration of internships, field research projects, and community-centric value-added courses.
